Access and Repeal:

Understanding the Implications of Federal Choices for the Pikes Peak Region

Presenter: Michele Lueck, President and CEO, Colorado Health Institute

The Affordable Care Act is changing. Or is it? From week to week, it's difficult to discern what will happen to President Obama's signature legislation. This presentation will focus on what we know, what might happen and the impact that decisions in Washington could have on the health care market in the Pikes Peak region. Repeal, replace or repair? What might happen to coverage, access, affordability and overall health? This session will span national and local implications of the changing health policy landscape.
